

## Moe-Mentum Transportation, Inc. Adopts CargoNet™ to Mitigate Cargo Theft Risk

# CargoNet™

In October of 2013, Moe-Mentum Transportation, Inc., announced its participation and support of CargoNet a leading source of information about supply chain cargo theft risk.

In an effort to prevent and mitigate cargo theft, Moe-Mentum Transportation, Inc., teamed up with CargoNet to add another security layer to protect our customers products and brands. CargoNet is a centralized resource and service to help achieve this protection. CargoNet provides Moe-Mentum Transportation, Inc. with the ability to quickly inform, mitigate, and recover, which is critical in the ever changing transportation industry.

In an effort to assist with cross supply chain information sharing and collaboration and help law enforcement with recovery efforts and investigations, Moe-Mentum Transportation, Inc. encourages our industry peers and supply chain partners to become members of CargoNet. Your support is imperative to add maximum protection to help combat cargo theft which impacts the transportation industry.

### Recovery:

- National Theft Alert System (Law Enforcement System Integration)
- 24/7 Command Center (Collects, coordinates and supports law enforcement and theft victim).
- The CargoNet™ command center becomes an extension of your security program.
- CargoNet™ Database (aggregate database allows police to query the system for stolen cargo (serial numbers, lot & SKU numbers, product descriptions, etc.).

### Prevention & Analytics

- Identify hot beds of cargo theft through the use of the CargoNet System
- Benchmark your theft events against national trends.
- Brand protected theft alerts (full tractor/ trailer, suspicious activity, fictitious pick-up, supply chain identity, reverse 911, scam/ fraud alerts, etc.).
- Weekly cargo theft incident reports.
- Decision Making Support: Use analytics to identify risk in advance.
- Monthly Truck Stop Reports.
- Tractor/ Trailer Marking Program- theft deterrent decals.

### Education and Awareness

- Quarterly & Annual theft reports, white papers, shared best practices.
- Webinars, video / podcasts, holidays advisories and much more.
- Pocket Tip Cards – provide drivers useful information (24/7 hotline and information needed for law enforcement).

### About CargoNet™

A division of Verisk's Crime Analytics unit, CargoNet™ helps prevent cargo theft and improve recovery rates through secure and controlled info- and controlled information sharing among theft victims, their business partners, and law enforcement. CargoNet™ is centered on a national database and information-sharing system managed by crime analysts and subject-matter experts. By applying a synchronized, layered approach, CargoNet™ exploits the

weakness of cargo thieves at multiple points. CargoNet offers integrated databases, a theft alert system, task force and investigations support, a tractor/trailer theft deterrence program, and the Truck Stop Report program. CargoNet™ also provides driver education and incentives, secondary-market monitoring and interdictions, crime trend analysis and loss control services, and training. More information on CargoNet™ can be found at [www.cargonet.com](http://www.cargonet.com).
